Preferred Promotion Platform in Foundry Industry

"Shanghai International Foundry Die Casting, Forging Exhibition" and "Shanghai International Heat Treatment and Industrial Furnace Exhibition" was founded in 2005, has been successfully held nineteen sessions, is committed to helping casting and die casting, forging, heat treatment and industrial furnace upstream and downstream enterprises to establish new Purchasing supply and channels, share the visitor resources, to meet the one-stop procurement needs.

The 20th Shanghai International Foundry, Die Casting and Forging Expo and 20th Shanghai International Heat Treatment & Industrial Furnace Expo will be held on **December 18-20, 2024** at the Shanghai New International Expo Center. The exhibitions will be located in Hall N1, N2 and N3, and are expected to attract 1,000 exhibitors, an exhibition area of 50,000 sqm and more than 30,000 professional visitors.

With the theme of "**Green and Low Carbon Development**", the exhibitions will invite domestic and well-known enterprises to display new products, technologies and equipments, and learn about the latest trends in the global industry.

| At a glance of last event

The last exhibition was successfully held from November 29 to December 1, 2023 in Shanghai New International Expo Center, attracting **986 exhibitors** and a total of **28,675 visitors** (including more than 50 buying groups).

In order to attract more visitors and buyers, the exhibitions invited a number of industry media to carry out online live broadcasting, which attracted more than **100,000 people** to participate online.

| Exhibit Profile

• Foundry:

- Foundry plants and installations, planning, construction, engineering.
- Casting robot, components, quality inspection equipment, casting Molds.
- Automation & Peripherals, environmental equipment, etc.

• Die casting:

- Die casting machine, die casting robots, molds and accessories, additive molding and manufacturing.
- Melting equipment and accessories, alloy materials, auxiliary consumables; software, reprocessing & CNC; surface treatment, etc.

• Forge:

- Forging equipment and technology, forging robots, laser cutting, extrusion, rotary forming, cutting, band saws, circular saws, bending and torsion molding equipment.
- Automatic forging presses, cold/warm forging presses, hydraulic presses, automatic molding equipment.
- Forging raw materials (bars, rounds, profiles, die steel, tool steel), testing and inspection, etc.
